

Technical Datasheet

For Personal Safety Equipment: Visor of Cellulose acetate, green, Shade 5

<u>Article-no.:</u> GFKVI405				<u>Description:</u> Visor of Cellulose acetate, green, 500x250x1,25mm, Shade 5 for attachment to Universal Visor Carrier	
EN Norms:				EG Examination certificate:	
EN 166	EN 167	EN 168			
Technical features					
Weight: 135g					
• Visor made of high-quality Cellulos acetate • High temperature resistance from ca. 90°C				• Good optical quality • Good UV-protection (Shade 5) • High notched bar strength	
Uses Materials:					
Visor:		Cellulose acetate, 1,25mm			
Eyelets:		Iron nickel-plated			
Fields of use:					
• Heavy industry: esp. workplaces with high radiant heat in the steel industry or in foundries				• Grinding works • Splinter protection	
Marking:
